The only reason i buy this dlc is because i can purchase CERA in-game, no matter how long i play and they didn't give me any useful support advise.. why i can't open this box ?. Good value if you can get it for regional lower price.. Great package for those unable to purchase CERA, for those who can, you will find better value in the 3000 Cera Shop Package imo.

Like the other reviewer broke down, the value is good, however you do NOT get the clone avatar with this, you get the Lite version of the Three Kingdoms cera shop package which does not include the pet or clone avatar (clone avatar gives stats and has emblem slots, normal one does not and is purely cosmetic).

The aura is amazing though and steam exclusive, 10% town speed and 50 to all stats is pretty good, life tokens are always useful as is neo premium plus and master contract (Use clear cubes as easiet to get and most neutral buff, you must activate cube in the inventory screen every time you log on)..
